

## THAT'S THE WAY OF LOVE

© Edison & Hirsch 2017

So this is love ... like verses poets pen.  
If this is love, then never let it end.  
Every time I look into your eyes,  
I get so high I forget my butterflies.

Head over heels without a shove.  
That's the way of love.

So this is love ... and I can hardly sleep.  
Can this be love, that just won't let me eat?  
All alone I wear a silly smile,  
Every thought all about you all the while.

And I thank the stars above,  
That's the way of love.

No one can say, how love will play,  
How hearts can beat as one.  
Friends will say you've lost your mind.  
But they can't understand, that love is a gift,  
The only gift in life of its kind.

solo

This is love ...  
Love that poets pen.  
The kind that just won't let you sleep.  
This is love ...  
Love without an end.  
The kind you heart will always keep.

My heart's on fire,  
I guess that's just the way of love ...  
You take me higher and higher,  
I guess that's just the way of love ...

## NATIVE SON REMIX 2017

© Edison & Hirsch 2017

I am but simple clay,  
Whose breath is born of cries.  
I am the joy, the tears,  
in a young Mother's eyes.  
I learn from my people, about love, about hate,  
Then take what I become,  
To meet this journey's fate  
I'm a native son.

I am of many clans,  
Tho' one blood weaves us whole.  
I am all who live and die, who wonder of a soul.  
I seek an understanding, this child that is me,  
In this lodge of contradictions,  
What man should I be?  
I'm a native son.

(chorus)

I'm a native son.  
I am the ground I walk upon.  
I am the seed of human dawn.  
I am the hope of nations gone.  
I am the struggle lost and won.  
I am, I'm a native son.

I am of many failings,  
Of have and want and need,  
Of I and me and mine,  
Of the calling I should heed.  
So come and sit in council,  
And share what truth you know,  
No circle is complete,  
Till all peoples come to know.  
I'm a native son.  
I'm a native son.  
I'm a native son.

(chorus)

O, Father sky,  
O, Mother earth,  
Give flesh and blood his spirit birth.

# ANY MOMENT NOW, MY LOVE

© Edison & Hirsch 2017

Any moment now, my love,  
The chains that hold us down will fall away.  
Any moment now, my love,  
We'll rise, create a better day,  
We'll stop our crying,  
Care for one-another again.  
No brothers dying,  
Time to let the spirit reign.  
Any moment, if we just want it,  
Any moment, love,  
No more feeding greed,  
no more living only for me.

Destruction that's not our fate.  
Compassion and peace await.  
Love, wake up, let's celebrate.

Any moment now, my love,  
The chains that hold us down will fall away.  
Any moment now, my love,  
We'll rise, create a better day,  
We'll stop our crying,  
Care for one-another again.

No sisters dying,  
Time to let the spirit reign.  
Any moment, if we just want it,  
Any moment, love,  
No more rising seas,  
No more naked children to feed.

Destruction, that's not our fate.  
Compassion and peace await.  
Love, wake up, let's celebrate.

Any moment, if we just want it,  
Any moment, love,  
No holy decrees,  
No wars of choice keep people free.

# WE CAN MAKE IT BETTER

© Edison & Hirsch 2017

Somedays the sun it just won't shine.  
Feels like it's raining all the time.  
Left waiting for the clouds to blow away

Sometimes a word so unkind said,  
Can roll like thunder in your head.  
Down in the dumps is not a place to play.

(chorus)

We can make it better,  
When we stick together.

Sooner or later the sun will shine on.

We can make it better,

Turn the darkest night into day.

We can make it better,

When we stick together.

Sooner or later the sun will shine on.

We can make it better,

Turn the darkest night to day.

Somedays the road is hard to find,

One step ahead then three behind.

Just chasin' bits of happiness we see.

Sometimes can feel we don't belong,  
But side by side we make us strong.

And giving up on us is not for me.

(chorus)

solo

(chorus)

Together we can,

Turn the darkest night into day.

# DANCE ACROSS THE UNIVERSE

© Edison & Hirsch 2017

Sitting on the ground, after dark.  
暗くなって地面に座っている。

I'm looking up in the sky, feeling calm and  
tree.

私は空を見上げている,

落ち着いて自由に感じる。

I hear you calling,

though you speak in whispers,

from some galaxy.

あなたの声が聞こえます,

銀河からのささやきさえ。

Is it truth? Is it fantasy?

真実ですか? それは幻想ですか?

Shall we dance across the universe?  
宇宙を越えて、私たちは踊りますか?

Let's dance beyond the Moon.

月を越えて踊りましょう。

Let's dance beyond Mars.

火星を超えて踊りましょう。

Let's dance atop the Milky Way.

天の川の上で踊りましょう。

Let's fly away!

飛びましょー!
